Commission	2018.06.28		x
SG			

**Question**

*Can Pedersoli add clean out screw to the bolster of the Enfield military muzzle loading rifles.*

**Remarks**

*Pedersoli added a clean out screw to the bolster of the Enfield rifle to ease manufacturing and cleaning. The members of the SAC did not approve this modification as this screw was not present on original rifles. Pedersoli went back to the original version with eliminating the screw.*

**Pictures attached to original inquiry**
